Alain Jeudy de Grissac has more than 30 years of experience as a marine and coastal environmental expert, focusing on marine and coastal conservation and development, including coastal and marine planning, strategic environmental assessment, integrated coastal zone management, as well as institutional and legal arrangements. Within this range, a special attention is given to marine and coastal protected areas management and associated economic impacts, associating conservation and human activities.

Geographically, he has been involved in numerous regional and national development programmes in the Mediterranean Sea, the Indian Ocean and Western Africa in more than 30 countries.
