Béatrice Riché joined the IUCN Global Marine Programme (GMP) in March 2010, as the Logistics and Communications Officer for the Western Gray Whale Advisory Panel (WGWAP). She is responsible for coordinating and overseeing the logistical elements of the WGWAP biennial meetings, coordinating internal and external WGWAP communications, and providing support to the development and implementation of the Western Gray Whale Conservation Plan and Rangewide Conservation Initiative.

Before joining the IUCN GMP, Beatrice worked as a project officer at the International Institute for Sustainable Development (IISD) in Geneva, where she managed research and development projects related to climate change adaptation. She also worked as a programme officer within the IUCN Forest Conservation Programme in Gland, where she managed projects related to sustainable forest management, reduced emissions from deforestation and forest degradation, and climate change adaptation. Beatrice also worked as a research assistant at McGill University. Beatrice completed an MSc in Environmental Change and Management at the University of Oxford in the UK and a BSc in Agricultural and Environmental Sciences at McGill University in Canada. She also studied in Denmark, Sweden, Estonia and Latvia.
