„Tiere Live“ goes Europe

16. - 18.03.2012

“Tiere Live” goes Europe

One of the main aims of biology and environmental education is to promote the respectful and emotional understanding of children and youth for nature and environment. An approach to this aim is the project “Tiere Live”.

It is a compendium which includes descriptions how to implement education for Biodiversity in schools. In this workshop experts from all over Europe are invited to discuss and develop strategies, how to implement “Tiere live” into schools on a European scale.
