dan.wilhelmsson@zoologi.su.se

Dan Wilhelmsson has worked with issues around sustainable use (e.g. sustainable fisheries, alternative livelihoods), conservation and monitoring of coastal natural resources, mainly coral reefs and fish in the Indian Ocean, since 1999.

He was regional coordinator for the Coastal Ocean Research and Development program in South Asia 1999-2005.

Since 2003 he is working on the environmental risks and opportunities of offshore renewable energy development (e.g. offshore wind and wave power)

Areas of expertise:

- Offshore wind and wave power; environmental risks and opportunities
- Coastal natural resources; sustainable use (e.g. fisheries, alternative livelihoods), conservation and monitoring (primarily coral reefs and fish).
