

IUCN  
World  
Conservation  
Congress  
Barcelona 2008

# Calling Congress participants of all ages!

At the IUCN's World Conservation Congress in 2004, a Resolution was passed on the Capacity Building of Young Professionals. Four years later, we now have the opportunity to look back and assess our accomplishments in order to shape a way forward. Join us in creating meaningful intergenerational dialogue, as we explore and develop concrete solutions to *engaging* and building capacity among the next generation of conservation leaders.

We warmly invite you to participate in the following workshops, and to attend our daily gatherings at 8:45 a.m. in front of the IUCN Commission on Education and Communication Stand.

Aliance Workshop Title	Main Organizer	When	Where
Inspiring business to become Leaders for Nature	IUCN National Committee	Mon, 6 Oct, 14:30–16:00	CCIB 130
